

BECAUSE SAFETY COMES FIRST

Our Corona Prevention Measures

Since the start of the pandemic, we have particularly felt how valuable personal exchange, genuine encounters and shared experiences are. As a trade fair and congress organiser we are very pleased that events are possible again. At the same time we are aware of our high responsibility: the safety of all participants always comes first. Our corona protection measures are always derived from the current recommendations of the German Robert Koch Institute and the specifications of the local authorities. Our events are thus „airier“, but all the more exclusive. And above all: safe.

Mouth-nose protection

As soon as you move freely in the room, please wear a mouth-nose protection. Prescribed are FFP2, OP or KN95 masks. A everyday fabric mask is not sufficient. When you can take it off when eating and drinking.

1.5 m minimum distance

We are ensuring there will be large open spaces, and plenty of room around the stands, in the aisles and halls. Please note at all times: Keep a safe distance from others!

Disinfection

We increase the cleaning cycles of all premises. Please also use our disinfectant dispensers, which are installed throughout the premises.

Mandatory registration

We record all participant data for targeted contact tracking.

Limited number of visitors

Through targeted measures we will optimally control the flow of visitors and avoid a high density of people.

New catering concepts

We implement the catering concept in accordance with the currently valid regulations.

Stay away when sick

If you feel ill, please stay at home. Anyone with fever-like symptoms will be refused admission.

Ventilation

We are making sure there will be continuous good ventilation everywhere at the event. Even if you can't see a window, a ventilation system will be operating in the background, regularly changing the air.

Entry

We already ensure security at the entrance: Access to the event is only granted to persons with proof of a complete vaccination, of the then valid requirements.

We ask for your attention

- **FFP2- or surgical mask** - except when eating and drinking at a fixed place
- Observe **distance markings**
- Keep a **minimum distance**
- **No handshaking, no hugging**, etc.
- **Wash and disinfect hands** regularly
